

## HER MEMORY IS NOT VERY GOOD

Mrs. Maybrick Testifies in the Big Land Suit.

## AVOIDS DIRECT ANSWERS

HAS AN INTEREST IN PROPERTY IN DISPUTE.

Washington, March 29.—The testimony of Mrs. Florence Maybrick in the taking of depositions in the case of her mother, Baroness von Roques, and Kentucky, was concluded today.

Mrs. Maybrick displayed marked capacity for avoiding direct answers to the rigid questioning to which she was subjected. She declared with respect to the signing of certain papers in prison which were brought to her by Counsel Foster that she was imperfectly informed as to the communications that passed between Mrs. Maybrick and her mother that she simply signed the documents without any clear knowledge of the transaction. Upon being pressed for a more direct answer, Mrs. Maybrick insisted that when she signed the papers she did not know the nature of their contents.

Could Not Remember. The defendant produced a number of letters purporting to have been written by her mother, Mr. Foster and others, before and during her imprisonment, but she expressed her inability to identify the handwriting of any of the sixteen years ago.

The impression of my mother's handwriting prior to my release," she said, "is too dim for me to identify definitely any letter." She would not state even to the best of her knowledge and belief that the letter shown her had been written by her mother, saying that a statement of that kind would be too definite.

Counsel for the plaintiff objected to a question as to whether Mrs. Maybrick had received a pardon from the British government, but the witness nevertheless cautiously replied that she had papers in her possession given her by the British government. Asked if she were willing to produce them Mrs. Maybrick replied with equal caution, that they were not permitted to be produced except at the request of the American government.

Mrs. Maybrick's Interest. On redirect examination, which was confined to one question, Mrs. Maybrick detailed the circumstances under which she acquired an interest in the property in dispute, saying that at her mother's death she had inherited one-third of her property interest in Kentucky, Virginia and West Virginia, and later assigned the same in writing. The deed and assignment, said Mrs. Maybrick, had been confirmed repeatedly by the British government to the present day by word of mouth.

"That," she said, "is the agreement that now exists between us," and she smilingly left the stand.

## CATTLEMEN WILL HELP IN THE INVESTIGATION

Colonel Frederick De Funiak.

Louisville, Ky., March 29.—Colonel Frederick de Funiak, capitalist and distinguished citizen, died at his home here today, aged 65 years. Colonel de Funiak was born in Rome, Italy, and was a veteran of Garibaldi's army. He was a long time chief engineer of the Louisville & Nashville railroad.

Colonel Jacob L. Greene.

Hartford, Conn., March 29.—Colonel Jacob L. Greene, president of the company, died today of apoplexy at his residence here, aged 68 years. During the civil war he served with a Michigan regiment.

Thomas H. Watts. Montgomery, Ala., March 29.—Thomas H. Watts, great-grandfather of the Red Men of the United States, died at his home in this city today of rheumatism, aged 30 years.

It will take about fifteen minutes to fit you in a topcoat. Have you got the fifteen minutes?

Prices \$15 to \$30. Latest and best fabrics. H. S. & M. quality—that's the best. To be had only of

At "The Sign of the Four" THIS  172 MAIN STREET.

## ROCKEFELLER'S GIFT IS ACCEPTED

Prudential Committee of the American Board of Commissioners For Foreign Missions Not Inclined to Look the Gift Horse in the Mouth.

BOSTON, March 29.—The American board of commissioners for foreign missions announced today that its prudential committee had accepted a report of the sub-committee, recommending the acceptance of the gift of \$100,000 by John D. Rockefeller, but that final action on the matter had been postponed for two weeks. The report of the sub-committee, in the language of a statement issued by the board today, was received and accepted as expressing the unanimous judgment of the prudential committee, and the executive officers, and was to the effect that the committee could not accept the gift of the money and to the protest of those who objected to the acceptance of the gift.

The report also stated that the gift was offered by Mr. Rockefeller and unanimously accepted by the prudential committee on Feb. 14 last. It says that in accepting the gift the committee followed the universal custom of the church in the past "in receiving upon its altars the gifts of all who were moved to lay them thereon."

Opinion of the Board. The report holds that the acceptance of a gift involves no expression of opinion on the part of the committee as to the character of the donor, and that it is the duty of the committee to accept a gift made to others in order to express an opinion seems unwarrantable.

The reason for deferring final action is given as follows: "Inasmuch as the protestants have requested delay the committee will hold final action in abeyance for two weeks."

Summing up the arguments of the defendant protestants the report says:

Agreement will tell the story

Partners in a "Get-Rich-Quick" Concern Could Not Trust Each Other and There is Written Evidence Against Them.

PHILADELPHIA, March 29.—J. Hec- for McNeal, receiver of the Provident Investment Bureau, stated today that he had received from the federal officials, assisted by the receivers of the Storer Cotton company, a report of the Provident Investment Bureau, which stated that the company had expected to have in their possession evidence of a widespread conspiracy to defraud the public through the medium of "get-rich-quick" concerns. Mr. McNeal said:

"We have just come into information which leads us to believe that the Provident Investment Bureau was only a part of a huge conspiracy and that its operations covered only a small part of a field which was designed to embrace the whole country.

"According to our information, when the scheme was devised it was recognized that the illegality of the transactions it had in view made it probable that some one of the concern might take French leave with most of the profits. A written agreement was made, drawn up and signed by the company, that the company might be prosecuted by the authorities made it inadvisable to have copies of the contract where federal officials might find them. Only one copy was made and it was given in charge of a man whose trustworthiness could be relied upon.

"This man we have seen, but he denies all knowledge of such a document. We expect to have the paper in two or three days and its disclosures, we believe, will be of a startling nature."

PROTESTS SENT TO THE PRESIDENT REFERRED BY HIM TO HITCHCOCK

(Special to The Herald.) Washington, March 29.—Protests from prospective settlers under the Minidoka irrigation project were telegraphed President Roosevelt yesterday and were referred by him today to Secretary Hitchcock. The protests were against the action of the secretary in the recent division of the fund appropriated for the Minidoka project so that part of it might be used on the Boise-Payette project. Secretary Hitchcock will not modify his decision in the matter and work on the Boise-Payette project will be inaugurated as early as a date as practicable.

In view of the misunderstanding which seems to have arisen in reference to Idaho irrigation matters the director of the geological survey today said that misapprehension has arisen by reason of the effort of many persons to anticipate the plans of engineers and secure choice holdings of lands. The government from the first has warned intending settlers to go slow in making entries on lands embraced in the Minidoka project and has called particular attention to the fact that involving a pumping plant, were merely tentative, and could not be worked out as quickly as those for a gravity system. While nothing has arisen so far to prevent ultimate developments of the pumping plant, so many delicate engineering features are involved that careful consideration must be given to these before any final plans are approved. So that apparently while no reason exists for believing that the pumping features of the Minidoka project will not ultimately be utilized, engineers very wisely have decided to give this question more study and consideration before recommending it for construction.

SOMETHING BEING DONE.

Just What the Diplomats Are in No Position to Say.

St. Petersburg, March 30, 1 a. m.—Officially the authorities continue to deny stoutly that Russia has made any proposals to Japan. This is literally true, as Russia is only too well aware of the negative conditions, leaving the intermediary to convey the conditions to Japan on its own responsibility.

Diplomats in St. Petersburg are convinced that something is in progress, but none of these in a position to know will acknowledge that they are aware of what actually has been or is being done.

The Novoe Vremya yesterday, for the first time, admitted the possibility of negotiations for peace, commenting on the efforts of the British and French press to prove that peace is advisable both for Russia and Japan. The Novoe Vremya declares that the payment of indemnity by Russia is a matter of the question, as it would be a contribution tending to build up the strength of Japan, and that Japan is not in a position to claim indemnity. The paper asks whether diplomats "who did nothing to prevent war" now will turn their attention to bringing it to a close on terms advantageous to both combatants?

St. Petersburg, March 29.—Trustworthy reports from Georgia, Russian and Caucasian, say that the insurrectionary movement is growing in the mountainous districts. It is added that the authorities have been deposed, that a province of Georgia has been proclaimed and that the troops decline to carry out the orders given them.

At Batumi, Erivan and Kars anarchy prevails and business is at a standstill.

St. Petersburg, March 29.—The governor of Yalta, Chirinev, states officially that order has been restored and will be maintained.

Children like Pils's Cure. It is pleasant to take and cures their coughs, 25c.

WARSHIP TO BE SENT TO PORT AU PRINCE

Washington, March 29.—An American man-of-war will be sent to Port au Prince to protect American interests. This determination was arrived at today when the state department received a telegram from Minister Powell, saying that serious trouble is impending in Haiti, and it is doubtful whether the authorities can maintain peace and order on March 31 and April 1. The state department immediately requested the navy department to dispatch a war vessel to Port au Prince.

The navy department, it is said, probably will send the cruiser Newark, Admiral Sigbee's flagship, to Port au Prince, the distance is but 180 miles, and the latter port can be quickly reached. The Brooklyn is expected to arrive at Guantánamo tonight or tomorrow.

State department officials are unable to explain the significance of the dates March 31 and April 1, mentioned in the cablegram from Minister Powell, as the days on which trouble might be expected in Haiti.

St. Petersburg, March 29.—Vice Admiral Doussoff, who acted as commissioner for Russia on the international commission which inquired into the North Sea incident, has been appointed aide de camp general to the emperor with the retention of his present post of commander of the technical board of the admiralty.

Consult your doctor about your cough

At the same time ask him what he thinks of Ayer's Cherry Pectoral. He will know all about it, for we send doctors the formula. For over 60 years doctors have endorsed it for coughs, colds, weak lungs, bronchitis, asthma.

## RUSSIA HAS NOT TAKEN ACTION

(Continued from Page 1.)

ter that it makes no difference what St. Petersburg decides relative to asking for peace, as it will remain for Tokyo to accept or reject it. Therefore, it is maintained the peace situation has shifted from St. Petersburg to Tokyo, which now holds the key to the peace situation.

Although official information is lacking, it is asserted in well-informed quarters that Japan has permitted Russia to learn that the peace conditions will be severely rigorous, and will not be responsive to the recent sentimental plea to Japan's magnanimity. In particular, it is said that Japan's indemnity figure is \$200,000,000, and that this stupendous sum has proved so staggering to Russian diplomacy that it is the chief cause of the peace problem. Inquiries do not advance to a decisive stage.

WASHINGTON OPINION.

International Conference to Be Avoided.

Washington, March 29.—The genuine wish of this government for peace is the far east is not based upon selfish interests. American financiers have not overboarded themselves with bonds of either of the belligerent nations. Washington believes that it is to the advantage of both belligerents that the far east war come to a speedy end and anything that this government can do to bring that about will be done gladly. From the outset of the war the president has taken the position, as has been repeatedly announced by Secretary Hay, that he will do nothing to assist Russia and Japan to a peace basis when his services shall be called upon by the belligerents. But it is authoritatively stated that the official of the Washington government is ambitious to pose as the mediator between the east and west.

Should Deal Directly.

It is the feeling here that Russia and Japan should negotiate directly and avoid an international conference. Indeed, Japan has recently received an urgent warning against indirect negotiations lest they lead to an international conference, the results of which might prove disastrous to the interests of both belligerents.

There is authority for the statement that France is diligently striving to end the war and for six weeks past negotiations of the most confidential character have been in progress between Paris and St. Petersburg. Even diplomats of the highest rank have failed to obtain from the French minister, the results of the negotiations, but it can be announced on the same authority that the French minister has within a week admitted that he had in a general way outlined to M. Delcasse the general terms along which Russia might consent to consider peace.

Fears of Diplomats.

Advices from Europe tell of the fear prevalent there in certain quarters that the activities of Lamsdorff and Delcasse, the results of which might be disastrous to the interests of both belligerents.

## RICHARDS SAYS HE HAS NO FEAR OF THE RESULT

Omaha, March 29.—W. A. Richards, the commissioner of the general land office, passed through Omaha today en route to Wyoming to visit his daughters. Respecting the report from Washington that his office was to be investigated with regard to promotions of clerks he said he had no knowledge of anything of the kind, but would have no objection to it. During his administration of the land office promotions had been made solely on merit, in accordance with the requirements of civil service. Some clerks had been promoted because of their inability to earn the salaries which they were receiving and some of these were probably responsible for the false report of an investigation.

OFF FOR PARIS.

Ambassador McCormick Has Left St. Petersburg.

St. Petersburg, March 29.—Ambassador McCormick departed for Paris this evening. A large assemblage, in which practically the entire diplomatic corps was represented, gathered at the railroad station to bid him farewell.

This afternoon the ambassador, accompanied by Charge d'Affaires Eddy, was received in farewell audience by Foreign Minister Lamsdorff, who expressed the most cordial appreciation of the services of Mr. McCormick during the period of difficult diplomacy, said he regretted his departure and gave the ambassador the most cordial wishes for his success and enjoyment at his new post.

BOOZE OR MEDICINE?

Which will you have? If a woman suffering from one of the delicate ailments peculiar to her sex it will be well for her to know that Dr. Pierce's Favorite Prescription is the only remedy advised for such maladies which is also entirely free from intoxicating liquors and all other harmful agents. The good you feel from its use is not the delusive exhilaration from a tipping beverage, from which the system reacts into a worse condition than before. It may be a little lower in manifesting its bracing and invigorating action, but its benefits are none the less positive and, best of all, they are lasting. It's an honest medicine—not a beverage.

"I have been taking your medicine for the last two weeks and can say I am gaining strength," writes Mrs. South Klum, of 808 East Madison Street, Mount Pleasant, Iowa. "I have been very poorly all winter. I took Dr. Pierce's medicine several years ago. I knew it was good for any one suffering with female trouble. Have taken only one bottle and am gaining strength very fast. I am feeling better than I have for years. I am taking the 'Favorite Prescription.' It has helped me and I had cold and numb spells till my heart would almost stop beating. Have had one child since first taking your medicine. I continue with your treatment. I am feeling better than I have for years. I am taking the 'Favorite Prescription.' It has helped me and I had cold and numb spells till my heart would almost stop beating. Have had one child since first taking your medicine. I continue with your treatment. I am feeling better than I have for years. I am taking the 'Favorite Prescription.' It has helped me and I had cold and numb spells till my heart would almost stop beating. Have had one child since first taking your medicine. I continue with your treatment. I am feeling better than I have for years. I am taking the 'Favorite Prescription.' It has helped me and I had cold and numb spells till my heart would almost stop beating. Have had one child since first taking your medicine. I continue with your treatment. I am feeling better than I have for years. I am taking the 'Favorite Prescription.' It has helped me and I had cold and numb spells till my heart would almost stop beating. Have had one child since first taking your medicine. I continue with your treatment. I am feeling better than I have for years. I am taking the 'Favorite Prescription.' It has helped me and I had cold and numb spells till my heart would almost stop beating.
